Profile Summary

Computer Engineering student passionate about software engineering, full-stack development, and AI-driven solutions. Experienced in building end-to-end applications with a focus on scalable systems, problem-solving, and user-centric design. Driven by continuous learning, innovation, and creating impactful technology.

Experience

Full Stack Development Intern – Rayeva Dec 2025 – May 2026

- Built core e-commerce workflows including admin verification, seller onboarding, product management, order processing, and AI-powered product automation for a sustainability-focused marketplace.
- Developed Razorpay-based payment infrastructure with subscriptions, webhooks, seller payouts, invoice generation, and order-payment reconciliation while optimizing backend performance.

Freelance Full Stack Developer May 2026 – June 2026

- Developed an npm-based analytics SDK and client portal for e-commerce platforms, enabling event tracking, API key management, and Brevo-powered email/web notifications.

Projects

Zenith – AI-Powered Career Platform React, FastAPI, MongoDB

- Built an AI-driven career platform featuring resume parsing, personalized job matching, interview preparation, and skill-gap analysis.
- Integrated LLM-powered services to generate learning roadmaps, project recommendations, and real-time interview feedback.

Money Council – AI Financial Advisory Platform React, Node.js, MongoDB

- Developed a fintech platform providing AI-powered budgeting, savings, debt management, and investment guidance.
- Designed backend services for financial profiling, transaction tracking, goal management, and scenario-based financial planning.

NourishNet – Multi-Platform Food Delivery System React, React Native, Node.js

- Engineered a food delivery ecosystem with dedicated applications for customers, vendors, delivery partners, and administrators.
- Implemented order management, subscription workflows, real-time location tracking, route optimization, and payment processing.

Achievements

1st Place – HackFusion 2026 (SPIT)
2nd Place – Coherence (AIML) 2025
1st Place – Auraflix 2025
2nd Runner-Up – Neural Nexus 2.0 2025

Technical Skills

Languages	Python, JavaScript, C++, SQL
Technologies	React.js, React Native, Node.js, Express.js, FastAPI, REST APIs
AI/ML	Scikit-learn, TensorFlow, Pandas, NumPy, NLP, LLM Integration
Database & Tools	PostgreSQL, MongoDB, Firebase, AWS, Docker, Git, Postman, Razorpay

Education

B.E. in Computer Engineering – Fr. Conceicao Rodrigues College of Engineering, Mumbai 2023 – Present
CGPA: 9.59/10.00 (Up to Sem V)
